Powerful Features

The TechMate marine scan tool is a powerful yet user-friendly diagnostic tool that supports the widest range of marine engines in the industry. No other marine scan tool even comes close to covering the range of engine manufacturers that the TechMate scan tool covers. Better yet, TechMate's software is built-in and ready to perform with no optional cartridges to buy.

Portable and Easy to Use

Self contained and easy to use, the scan tool displays complete engine control system information allowing you to perform quick component level diagnostics. The scan tool's bright, sunlight readable display delivers live engine data, fault codes, fault code explanations and test results quickly and accurately. It's built-in fuel injector tester performs both single and multi-pulse tests to help pinpoint injector problems.

Upgradeable and Rugged

The tool is software upgradeable and features a large water and oil resistant keypad designed for the marine service environment. TechMate leads the industry in features, support, dependability and affordability.
